

DR. ALEJANDRO MOLINA-MOCTEZUMA

Quantitative Fisheries Scientist

molina28@msu.edu

<https://alejandromolina.weebly.com/>

Quantitative Fisheries Center
Michigan State University

Phone: (207) 907-0655
Twitter: @MolinaMoc

Current Appointment

Post-Doctoral Research Associate 2022-Present
Quantitative Fisheries Center, Michigan State University
Supervisor Dr. Travis Brenden

Education

Ph.D. 2020 Wildlife, Fisheries, and Conservation Biology Department, University of Maine
Dissertation: Movement and Survival of Atlantic salmon juveniles in the Penobscot River
M.S. 2015 Faculty of Science, Universidad Nacional Autonoma de Mexico
Thesis: Food availability and mother to embryo nutrient transfer in two live-bearing fish species
B.S. 2012 Faculty of Science, Universidad Nacional Autonoma de Mexico

Professional Experience

2022 – Present *Post-Doctoral Research Associate*, Quantitative Fisheries Center, Michigan State University
2020 – 2022 *Post-Doctoral Fellow*, Center for Freshwater Research and Education, Lake Superior State University
2015 – 2020 *Research Assistant*, Wildlife, Fisheries, and Conservation Biology Department, The University of Maine
2015 *Lecturer*, Ecology (Bio 300), Emebioq y Farma, Mexico City
2015 *Private tutor*, Mathematics
2012 – 2015 *Research Assistant*, Laboratorio de Ecologia de Poblaciones, UNAM

Teaching Experience

2022 *Instructor of Record*, Department of Fisheries and Wildlife, Michigan State University, FW 479 ((Fisheries Management)
2020 *Adjunct Professor*, School of Natural Resources and Environment, Lake Superior State University, NRES 432 (Fisheries Management Laboratory)
2020 *Invited Lecture*, School of Natural Resources and Environment, Lake Superior State University, NRES 431 (Fisheries Management)
2019 *Teaching Assistant*, Wildlife, Fisheries, and Conservation Department, WLE 220 (Introduction to Ecological Stats)
2015 *Lecturer*, Ecology (Bio 300), Emebioq y Farma, Mexico City
2014 *Teaching Assistant*, Faculty of Science, Universidad Nacional Autonoma de Mexico, Ecology (Bio 300)
2014 *Teaching Assistant*, Faculty of Science, Universidad Nacional Autonoma de Mexico, Biostatistics (Bio 200)

Publications

1. **Molina-Moctezuma**, A., Stich, D. S. & Zydlewski, J. D. 2022. Effects of dam-induced delays on system-wide survival of Atlantic salmon smolts during high-flow, high-survival years in the Penobscot River, Maine, USA. *Canadian Journal of Fisheries and Aquatic Sciences*. 79.12 (2022): 2237-2250.

Manuscripts in Review or in Prep

13. **Molina-Moctezuma**, A., K. Kapuscinski & Moerke, A. (Currently being reviewed by co-authors). Response of fish assemblages to restoration of rapids habitat in a Great Lakes connecting channel. To be submitted to: *Journal of Great Lakes Research*.
14. **Molina-Moctezuma**, A., K. Kapuscinski & Moerke, A. (Currently being reviewed by co-authors). (%). Nutrient loading by potamodromous fish. To be submitted to: *Freshwater Biology*
15. **Molina-Moctezuma**, A., K. Kapuscinski, and A. H. Moerke. (In prep, progress: 75%). Returns of landlocked Atlantic salmon in the St. Mary's River. To be submitted to: Fisheries
16. Hawkes, J. P., Goulette, J., Kocik, J. F., & **Molina-Moctezuma**, A. (In review). Behavior and survival of naturally- and hatchery-reared Atlantic salmon smolts stocked in a Maine estuary. *Transactions of the American Fisheries Society*.
17. Hawkes, J. P., Goulette, J., **Molina-Moctezuma**, A., Atkinson, E., & Cox, O. (In review). Evaluation of Age-1 Hatchery Smolt Stocking in a Small Maine Coastal Watershed. *Transactions of the American Fisheries Society*.

Research Grants

Four grants funded for ~1.4 million dollars.

1. Building capacity at LSSU's Center for Freshwater Research and Education
FUNDED; \$956,658
US Department of Commerce, Economic Development Administration
Co-investigators: Ashley Moerke (lead), Kevin Kapuscinski, John Doubek
2. Expanding the MiWaterNet initiative to implement water sensors in the Eastern Upper Peninsula of Michigan
FUNDED; \$35,000

Michigan Department of Natural Resources

Co-investigators: Ashley Moerke (lead)

3. Migratory characterizations of Atlantic salmon smolts and adults in the Penobscot River, Maine
FUNDED; \$350,000
NOAA Section 6
Co-investigators: Oliver Cox (lead), Joseph Zydlewski, George Maynard
4. Penobscot River Restoration Trust. Passage success and survival of hatchery-reared smolts through Howland Dam
FUNDED; \$25,000
Penobscot River Restoration Trust
Co-investigators: Joseph Zydlewski
5. Will a changing climate facilitate expansion of Dreissenid mussels into the St. Marys River?
NOT FUNDED. Submitted as PI
Michigan DNR – MISGP
Co-investigators: Kevin Kapuscinski, John Doubek, Neil Ashton
6. Enhancing data quality from a low-cost sensor network to target future conservation efforts
NOT FUNDED
Great Lakes Observing System
Co-investigators: Ashley Moerke

Fellowships, Assistantships, Honors and Awards

2019	University of Maine; Chase Distinguished Research Assitantship
2019	University of Maine, College of Natural Sciences, Forestry, and Agriculture; Graduate Research Excellence Award
2019	University of Maine and Penobscot County Conservation Association; Horace Bond Award
2019	American Fisheries Society; Skinner Memorial Award
2018	University of Maine; UMaine GSG travel award
2017	University of Maine; GSG UMaine club funding
2016	NoWPas; NoWPas graduate fellowship (travel to present)
2016	SEP Mexico; Excellence in Graduate Studies
2013	CONACyT (MX); Award (travel to present)
2013	UNAM PAEP (MX); Travel Award

American Fisheries Society Executive Board

Member since 2015

2016-2017 University of Maine Student Subunit President

2017-2018 University of Maine Student Subunit President

Honors and awards as UMaine AFS president:

2017 “**AFS Outstanding Student Subunit Award**”; national award for the most outstanding student subunit

2017 **Maine Graduate Student Government Club Funding**; Funding for outreach activities awarded by the Umaine Graduate Student Government

2016 **Maine Graduate Student Government Club Funding**; Funding for outreach activities awarded by the Umaine Graduate Student Government

Outreach activities organized:

1. Organized the 2017 Sunkhaze Café seminar series, with help of the Friends of Sunkhaze organization
2. Organized R Workshop taught by Dr. Trevor Avery (Acadia University)
3. Co-organizer of the 3rd Annual Spawning Run 5K- Proceeds used to bolster and expand science and learning to local grade schools
4. Co-organizer of the 3rd Women in Science Luncheon
5. Presented “Macroinvertebrate I.D.” and “Squid Anatomy and Ecology” lessons for elementary school and middle school students in the state of Maine
6. Co-Developed an “Ask a Fisheries Scientist” lesson for elementary school
7. Outreach talks about Atlantic salmon
8. Organized Resume and Cover-Letter Workshop for University of Maine Students
9. Organized a “Build your own website” workshop
10. Diadromous Fish Ecology lesson at John Bapst High School
11. Co-organized the 4th Annual Spawning Run 5K- Proceeds used to bolster and expand science and learning to local grade schools
12. Organized and lead over 25 weekly meetings, with over 10 having invited speakers

Academic Committees and Professional affiliations

2015-Present American Fisheries Society (2015-present)

2015-2020 (AFS) Northeast Division
Atlantic International Chapter
UMaine Student Sub-Unit

2020-Present (AFS) North Central Division
Michigan Chapter

2020-Present The International Association for Great Lakes Research

2015-2020 Maine Atlantic Salmon Passage Working Group

2013-2015 American Society of Ichthyologists and Herpetologists

2011-2015 Ichthyological Society of Mexico

Technical Reports and Grants Reviewer

Technical report of 2015 Atlantic salmon smolt survival in the Penobscot River, as part of the Maine Atlantic salmon passage group

Technical report 2016 Atlantic salmon smolt survival in the Penobscot River, as part of the Maine Atlantic salmon passage group

Technical report 2016 Atlantic salmon upstream passage

Technical report 2017 Atlantic salmon smolt survival in the Penobscot River, as part of the Maine Atlantic salmon passage group

Technical report 2018 Atlantic salmon smolt survival in the Penobscot River, as part of the Maine Atlantic salmon passage group
NOAA 2020 Section 6 Grant Reviewer

Presentations

Co-organized the symposium “The Role of Interactive User Interfaces in Fisheries and Wildlife Sciences” with Dr. Danielle Quinn during AFS/TWS2019

Relevant Coursework

Fisheries Population Dynamics, Structured Decision Making, Evolutionary Theory and Application, , Biological Modeling and Simulation, Discussions in Population Ecology, Fish Physiology, Behavioral Ecology, Population Ecology, Natural Resources, Biostatistics, Genetics, Reproductive Biology of Vertebrates, Field Course in Terrestrial Vertebrates of the Deciduous Tropical Forest.

Relevant Workshops

- 2020 Relational Databases in Access, Northern Michigan University
- 2019 Nimble Workshop, at TWS-AFS joint meeting
- 2016 Bayesian integrated population modeling (IPM) using BUGS and JAGS. Patuxent Wildlife Research Center, Laurel, Maryland
- 2014 EURING Analytical Workshop. 2013. University of Georgia. Athens, Georgia.
- 2013 Sampling design and statistics applied to biodiversity monitoring. 2013. Colorado State University and UNAM. Mexico City, Mexico
- 2010 Mark-recapture models for natural populations: basic elements and current tendencies. CIMAT, University of Idaho and University of Montana. Guanajuato, Mexico
